An illustrated book of 100 hearts

2014 Thomas Raddall Atlantic Fiction Award — Winner On April 7, 2005, an I.E.D. blast in Afghanistan alters the course of Jeremy Merkin's life forever. Still grieving the loss of his best friend, who was killed by the explosion, and nursing the physical and psychological wounds of the war, Jeremy returns home to find that nothing has changed, and yet everything is different. Living in the basement of a house he shares with his grandparents, mother, and mentally-

challenged cousin, Henry, Jeremy smokes marijuana to combat his constant pain. He begins a career as a high school teacher, but memories of the war, the physical limitations caused by his injuries and a criminal accusation threaten to end his teaching career before it's even begun. After Helen, the matriarch of the family, dies in her sleep, the already-dysfunctional Merkin clan comes unglued. Jeremy contacts his father, who lives in a local mental institution, to seek advice, only to discover that his grandfather has been hiding a dark secret from his family. His discovery of the secret alters the way he sees his family, and himself, forever. Amidst all this chaos, his cousin runs away from home to find his mother in New York City. Knowing Henry can't possibly survive the trip on his own, Jeremy races across the country to find him. While in New York, Jeremy's world is altered yet again, as more family secrets are uncovered, this time with

dreadful consequences. The Hundred Hearts is a darkly funny story of the courage required to carry on after coming home, and the redemptive power of accepting and revealing our own secrets in order to move forward.

Still the leading cause of death worldwide, heart disease challenges researchers, clinicians, and patients alike. Each day, thousands of patients and their doctors make decisions about coronary angioplasty and bypass surgery. In Broken Hearts David S. Jones sheds light on the nature and quality of those decisions. He describes the debates over what causes heart attacks and the efforts to understand such unforeseen complications of cardiac surgery as depression, mental fog, and stroke. Why do doctors and patients overestimate the effectiveness and underestimate the dangers of medical interventions, especially when doing so may lead to the overuse of medical

therapies? To answer this question, Jones explores the history of cardiology and cardiac surgery in the United States and probes the ambiguities and inconsistencies in medical decision making. Based on extensive reviews of medical literature and archives, this historical perspective on medical decision making and risk highlights personal, professional, and community outcomes.

Laura Caxton vowed never to face them again. The horror of what the vampires did is too close, the wounds too fresh. But when Jameson Arkeley, broken and barely recognizable, comes to her with an unfathomable, unholy discovery, her resolve crumbles. Arkeley leads Caxton to a tomb in Gettysburg recently excavated by a local archaeology professor. While the town, with its legendary role in the Civil War's worst battle, is no stranger to cemeteries,

this one is remarkably, eerily different. In it lie 100 coffins—99 of them occupied by vampires, who, luckily, are missing their hearts. But one of the coffins is empty and smashed to pieces. Who is the missing vampire? Does he have access to the 99 hearts that, if placed back in the bodies of their owners, could reanimate an entire bloodthirsty army? How did the vampires end up there, undisturbed and undiscovered for 150 years? The answer

one part Lewis and Clark, Brutal Journey tells the story of a group of explorers who came to the new world on the heels of Cortés; bound for glory, only four of four hundred would survive. Eight years and some five thousand miles later, three Spaniards and a black Moroccan wandered out of the wilderness to the north of the Rio Grande and into Cortes' gold-drenched Mexico. The four survivors of the Narváez expedition brought nothing back

from their sojourn other than their story, but what a tale it was. They had become killers and cannibals, torturers and torture victims, slavers and enslaved. They became faith healers, arms dealers, canoe thieves, spider eaters, and finally, when there were only the four of them left in the high Texas desert, they became itinerate messiahs. They became, in other words, whatever it took to stay alive long enough to inch their way toward Mexico,

the only place where they were certain they would find an outpost of the Spanish empire. The journey of the Cabeza De Vaca expedition is one of the greatest survival epics in the history of American exploration. By drawing on the accounts of the first explorers and the most recent findings of archaeologists and academic historians, Paul Schneider offers a thrilling and authentic narrative to replace a legend of North American exploration.

void so that living their lives can begin again.

At least one point in your life you've probably faced adversity that made you question your ability to go on. But you did go on, and since then: • How would you define courage? • Was there a defining moment that made you who you are today? • What do you want other women to know? One Hundred Hearts shares the deeply introspective responses to these and other questions answered by one hundred women. Through their answers, stories of ordinary women and their extraordinary courage come to life. You'll laugh with them,

award-winning, best-selling, and beloved author of How to Read a Poem Implicit in poetry is the idea that we are enriched by heartbreaks, by the recognition and understanding of suffering--not just our own suffering but also the pain of others. We are not so much diminished as enlarged by grief, by our refusal to vanish, or to let others vanish, without leaving a record. And poets are people who are determined to leave a trace in words, to transform oceanic depths of feeling into art that speaks to others. In 100 Poems to Break Your Heart, poet and advocate Edward Hirsch selects 100 poems, from the nineteenth century

to the present, and illuminates them, unpacking context and references to help the reader fully experience the range of emotion and wisdom within these poems. For anyone trying to process grief, loneliness, or fear, this collection of poetry will be your guide in trying times. The unbelievable true story of artist Thomas Kinkade, self-described “Painter of Light,” and the dramatic rise —and fall—of his billion-dollar gallery and licensing business. He was just one man, but Thomas Kinkade ultimately made more money from his art than every other artist in the history of the world combined. His sentimental paintings of babbling brooks, rural

churches surrounded by brilliant fall foliage, and idyllic countryside cottages were so popular in the 1990s that one out of every twenty homes in America owned one of his prints. With the help of two partners—a former vacuum-cleaner salesman and an ambitious junior accountant who fancied himself a businessman—Kinkade turned his art into a billion-dollar gallery and licensing business that traded on the NYSE before it collapsed in 2006 amid fraud accusations. One part a fascinating business story about the rise, and demise, of a financial empire born out of divine inspiration, one part a dramatic biography, Billion Dollar

Painter is the account of three nobodies who made it big. One of them was a man who, despite being a devout Christian who believed his artwork was a spiritual force that could cure the sick and comfort the poor in spirit, could not save his art empire, or himself. Eric Kuskey, former colleague of Thomas Kinkade's and close friend until the artist's death in 2012, tells Kinkade's story for the first time—from his art's humble beginnings on a sidewalk in Carmel, California, to his five-house compound in Monte Sereno. It's a tale of addiction and grief, of losing control, and ultimately, of the price of our dreams.

The Medical Fortnightly

From the award-winning author of *The Electrical Field* comes this riveting story of love, guilt, and complicity the context of war. Miyo and her father, Masao, live a reclusive life together in Toronto, as they have since Miyo's mother died in childbirth. When her father dies, Miyo learns that years before he had secretly married

had another child. Driven to discover what else he may have hidden, Miyo travels to Tokyo to meet Hana, her sister. She finds herself drawn into Hana's obsession with learning their father's war history-and is shocked to learn that he was a kamikaze pilot. How did he come back alive when only death bestowed honor on a kamikaze? What did he do to survive? Sakamoto skillfully weaves larger questions of guilt and obligation into an intimate, suspenseful account of a young woman and a country confronting themselves.

An incredible, original and magical tale with extraordinary characters and equal measures of

adventure and suspense.

Thomas Berger's debut novel of a young man tumultuously coming of age in postwar Germany Carlo Reinhart, a young American army medic stationed in Germany, confronts a disturbing new world following the end of World War II. Living in Berlin, a city fractured in barricaded sectors by the occupying powers, Reinhart begins to drive himself mad with memories of the evils he has witnessed and questions about how the atrocities place. When he meets an idealistic Jew named Nathan Schild, Reinhart's turmoil grows more acute. Schild works for both the Americans and the Russians, and h
