The Last Uncharted Sky

New Alternate History Fantasy series created by New York Times best-selling author Kevin J. Anderson and Sarah A. Hoyt. Arcane America A new world. New magic. New history. After Halley's Comet was destroyed in a magical battle in 1759, the backlash separated the entire New World from the Old in an event known as The Sundering. Now isolated from the rest of the globe, America has become a very different place, where magic works and history has been changed forever. It is 1803—a new 1803. Young Meriwether Lewis, footloose and intrigued, goes to hear a lecture in St. Louis by the venerated old wizard Benjamin Franklin. Franklin's talk is disrupted by the attack of a winged fire-breathing beast, much like legends from Lewis's own Welsh heritage. In the aftermath, Franklin tells the young man that he knows of a great, growing evil that lurks in the uncharted Arcane Territories west of the Mississippi. Using his own vast fortune, Franklin commissions Lewis and his own talented partner William Clark to embark on a remarkable voyage of exploration, to meet and document the indigenous tribes, to find a route all the way to the Pacific Ocean—and perhaps beyond the magical veil to Europe again—and to stop the growing evil that is filling the American West. For while the Sundering separated the rest of the world and

granted the original colonists unexpected magical gifts, sorcery inspired by native legends has also been ignited. And the Arcane Territories may hold unparalleled dangers for the expedition, both natural and magical. Accompanied by the brilliant shape-shifting sorceress Sacajawea, Lewis and Clark set off on an unparalleled adventure across a landscape that no European has ever seen. At the publisher's request, this title is sold without DRM (Digital Rights Management).

From actress and activist Evanna Lynch comes a raw and compelling memoir about navigating the path between fears and dreams. Evanna Lynch's casting as Luna Lovegood in the Harry Potter films is a tale that grew to almost mythic proportions—a legend of how she faced disordered eating as a young girl, found solace in a beloved book series, and later landed the part of her favorite character. But that is not the whole story. Even after recovery, there remains a conflict at her core: a bitter struggle between the pursuit of perfection and the desire to fearlessly embrace her creative side. Revealing a startlingly accomplished voice, Lynch delves into the heart of her relationship with her body. As she takes the reader through a personal journey of leaving behind the safety of girlhood, Lynch explores the pivotal choices that ultimately led her down the path of creativity and toward acceptance of the wild, sensual, and unpredictable reality of womanhood. Honest, electrifying, and inspiring, this is a story of the battle between self-destruction and creation, of giving up the preoccupation with perfection in favor of our uncharted dreams—and how the simple choice to create is the most liberating action a person can take. The Art of Destiny 2 is the definitive collection for the game's stunning art and design. The Art of Destiny 2 is a celebration of the dynamic art and visual style that fans have come to love about Destiny. Featuring

hundreds of pieces of concept art, the book covers everything from early sketches and illustrations of characters to paintings of sweeping vistas the designers used to help shape the in-game worlds. Each step of the process is meticulously detailed, from building in-game cinematics to crafting the complex universe. With exclusive, never-before-seen imagery, developer commentary, and more, The Art of Destiny 2 is a must-have for Guardians everywhere.
