A cartoonist follows reporters across the Middle East, learning about journalism and how stories are told

Cartoonist Sarah Glidden follows up her acclaimed debut, How to Understand Israel in 60 Days or Less, with Rolling Blackouts, which details her two-month long journey through Turkey, Iraq, and Syria. Glidden accompanies her two friends--reporters and founders of the journalistic non-profit The Seattle Globalist--as they research stories on the Iraq War's effect on the Middle East and, specifically, the war's refugees. Joining them is a former Marine and childhood friend of one of the journalists whose deployment to Iraq in 2007 adds an unexpected and sometimes unwelcome viewpoint, both to the people they come across and perhaps even themselves. The crew works their way through the region with the goal of asking civilians, refugees, and officials: "who are you?" Everyone has a story to tell: the Iranian blogger, the United Nations Refugee administrator, a taxi driver, the Iraqi refugee deported from the US, the Iraqis seeking refuge in Syria, and even the American Marine. The journalists struggle equally with how to tell these stories and with how to market them into articles people will want to read. Glidden records all that she encounters with a sympathetic and searching eye--What is journalism? What is its purpose? What is honesty? Painted in her trademark soft muted watercolors and written with a self-effacing humor, Rolling Blackouts cements Glidden's place as one of comics's most original nonfiction voices.

AN AUSPICIOUS DEBUT EXAMINING THE CULTURE OF HAIR FROM THE RONA JAFFE FOUNDATION AWARD-WINNING CARTOONIST *Hot Comb* offers a poignant glimpse into Black women's lives and coming of age stories as seen across a crowded, ammonia-scented hair salon while ladies gossip and bond over the burn. The titular story "Hot Comb" is about a young girl's first perm—a doomed ploy to look cool and to stop seeming "too white" in the all-black neighborhood her family has just moved to. In "Virgin Hair" taunts of "tender-headed" sting as much as the perm itself. It's a scenario that repeats fifteen years later as an adult when, tired of the maintenance, Flowers shaves her head only to be hurled new put-downs. The story "My Lil Sister Lena" traces the stress resulting from being the only black player on a white softball team. Her hair is the team curio, an object to be touched, a subject to be discussed and debated at the will of her teammates, leading Lena to develop an anxiety disorder of pulling her own hair out. Among the series of cultural touchpoints that make you both laugh and cry, Flowers recreates classic magazine ads idealizing women's needs for hair relaxers and product. "Change your hair form to fit your life form" and "Kinks and Koils Forever" call customers from the page. Realizations about race, class, and the imperfections of identity swirl through Flowers' stories and ads, which are by turns sweet, insightful, and heartbreaking. Flowers began drawing comics while earning her PhD, and her early mastery of sequential storytelling is nothing short of sublime. *Hot Comb* is a propitious display of talent from a new cartoonist who has already made her mark.

Nomen Omen #15 (of 15)

A surreal and stunningly beautiful graphic novel about death, mourning, and family by one of the most promising young artists working today. "We buried one of dad's lungs," announces the narrator of *The Tenderness of Stones*. The lung is so large it takes three men to carry it—and that is just the beginning. The family looks on as, under the dispassionate orders of anonymous white-clad strangers, their father is disassembled, piece by piece: His nose is removed from his face and tied, temporarily, to his neck; his other lung is pulled out and he is forced to lug it around in a cart; his mouth is pried off and stored away, leaving him mute. Beneath it all is one devastating truth: Soon, he will be gone entirely. Marion Fayolle is one of the most innovative young artists in contemporary comics, and in this startling, gorgeously drawn fable she offers a vision of family illness and grief that is by turns playful and profound, literal and lyrical. She captures the strange swirl of love, resentment, grief, and humor that comes as we watch a loved one transformed before our eyes, and learn to live without them.

Originally published by Chicago's Black press, long neglected by mainstream publishers and now included in a Museum of Contemporary Art Chicago exhibition, these comics showcase some of the finest Black cartoonists. Between the 1940s and 1980s, Black press—from The Chicago Defender to the Negro Digest to self-published pamphlets—was home to some of the best cartoonists in America. Kept out of the white-owned newspapers, Black cartoonists found space to address the joys, the struggles, and the everyday realities of Black life in America. From Jay Jackson's anti-racist

travel adventure serial Bungleton Green, to Morrie Turner's radical mixed-race story Dinky Fellas, to the Afrofuturist comics of Yaoundé Olu and Turtel Onli, to National Book Award-winning novelist Charles Johnson's blistering and deeply funny gag cartoons, this is work that has for far too long been excluded and overlooked. An anthology featuring the work of Tom Floyd, Seitu Hayden, Jackie Ormes, and Grass Green, this anthology accompanies the Museum of Contemporary Art Chicago's exhibition Chicago Comics: 1960 to Now, and is an essential addition to the history of American comic books. The book's cover is designed by Kerry James Marshall. Published in conjunction with the Museum of Contemporary Art Chicago, on the occasion of Chicago Comics: 1960 to Now, June 19–October 3, 2021. Curated by Dan Nadel.

Growing Up Chicago is a collection of coming-of-age stories written by Chicago authors that reflects the diversity of the city and its metropolitan area. Primarily, the book asks, What characterizes a Chicago author?

Monsters seem inevitably linked to humans and not always as mere opposites. Mervin Ahmed examines good monsters in comics to show how Romantic themes from the eighteenth and the nineteenth centuries persist in today's popular culture. Comics monsters, questioning the distinction between human and monster, self and other, are valuable conduits of Romantic inclinations. Engaging with Romanticism and the monsters created by Romantic writers and artists such as Mary Shelley, Victor Frankenstein, Goya, Ahmed maps the heritage, functions, and effects of monsters in contemporary comics and graphic novels. She highlights the persistence of recurrent Romantic themes through monstrous protagonists in English- and French-language comics and draws their implications. Aspects covered include the dark Romantic predilection for the sordid, the solitary protagonist and his quest, nostalgia, the prominence of the spectacle as well as excessive emotions, and above all, the monster's ambiguity and rebelliousness. Ahmed highlights each Romantic theme through close readings of well-known but often overlooked comics, including Enki Bilal's *Monstre* tetralogy, Jim O'Barr's *The Crow*, and Emil Ferris's *My Favorite Thing Is Monsters*, as well as the iconic comics series Alan Moore's *Swamp Thing* and Mike Mignola's *Hellboy*. In both the otherness of the monster, these protagonists retain the exaggeration and uncontrollability of all monsters while incorporating Romantic characteristics. The author's jumping-off point is the myth of Artemis and Siproites, in which a young man is turned into a woman as a punishment for the attempted rape of one of her virgin cohorts. Bunjevac's retelling follows Benny, a sexually deviant man who, coming across an alluring former classmate, concocts an elaborate, disturbing rape fantasy. Inked in her lush, stippled, illustrative style, Bunjevac crafts a gripping, noirish, Nabokovian tale, by turns surreal and harrowing, that turns the male gaze inside out. *Bezimena* is both a radical examination of the misconceptions surrounding rape and an artistic and psychological tour de force.

"Isaiah is now the big man of the house. But it's a lot harder than his dad made it look. His little sister, Charlie, asks too many questions, and Mama's gone totally silent. Good thing Isaiah can count on his best friend, Sneaky, who always has a scheme for getting around the rules. Plus, his classmate Angel has a few good ideas of her own--once she stops hassling Isaiah. And when things get really tough, there's Daddy's journal, filled with stories about the amazing Isaiah Dunn, a superhero who gets his powers from beans and rice. Isaiah wishes his dad's tales were real. He could use those powers right about now!"--

"When Sabrina disappears, an airman in the U.S. Air Force is drawn into a web of suppositions, wild theories, and outright lies. Sabrina depicts a modern world devoid of personal interaction and responsibility, where relationships are stripped of intimacy through glowing computer screens. An indictment of our modern state, Drnaso contemplates the dangers of a fake news climate."--

Frimme Hersh breaks his contract with God and ends up as a Depression-era slumlord, while Jacob Shtarkah strives to help an old friend trapped in Nazi Germany and struggles with poverty and the corruption of the residents of Dropsie Avenue. The primacy of words over images has deep roots in Western culture. But what if the two are inextricably linked in meaning-making? In this experiment in visual thinking, drawn in comics, Nick Sousanis defies conventional discourse to offer readers a stunning work of graphic art and a serious inquiry into the ways humans construct knowledge.

Poppies of Iraq

Seattle teenagers of the 1970s are suddenly faced with a devastating, disfiguring, and incurable plague that spreads only through sexual contact.

A personal account of an Iraqi childhood Poppies of Iraq is Brigitte Findakly's nuanced tender chronicle of her relationship with her homeland Iraq, co-written and drawn by her husband, the acclaimed cartoonist Lewis Trondheim. In spare and elegant detail, they share memories of her middle class childhood touching on cultural practices, the education system, Saddam Hussein's state control, and her family's history as Orthodox Christians in the arab world. Poppies of Iraq is intimate and wide-ranging; the story of how one can become separated from one's homeland and still feel intimately connected yet ultimately estranged. Signs of an oppressive regime permeate a seemingly normal life: magazines arrive edited by customs; the color red is banned

after the execution of General Kassim; Baathist militiamen are publicly hanged and school kids are bussed past them to bear witness. As conditions in Mosul worsen over her childhood, Brigitte's father is always hopeful that life in Iraq will return to being secular and prosperous. The family eventually feels compelled to move to Paris, however, where Brigitte finds herself not quite belonging to either culture. Trondheim brings to life Findakly's memories to create a poignant family portrait that covers loss, tragedy, love, and the loneliness of exile. *Poppies of Iraq* has been translated from the French by Helge Dascher. Dascher has been translating graphic novels from French and German to English for over twenty years. A contributor to *Drawn & Quarterly* since the early days, her translations include acclaimed titles such as the *Aya* series by Marguerite Aboutet and Clément Oubrerie, *Hostage* by Guy Delisle, and *Beautiful Darkness* by Fabien Vehlmann and Kerascoët. With a background in art history and history, she also translates books and exhibitions for museums in North America and Europe. She lives in Montreal.

Algeria the Beautiful explores the rich heritage and tumultuous modern history of Algeria and its connections to Europe and colonialism. Olivia had always heard stories about Algeria from her maternal grandmother, a Black Foot (a "Pied-Noir," the French term for Christian and Jewish settlers of French Algeria who emigrated to France after the Algerian War of Independence). After her grandmother's death, Olivia found some of her grandmother's journals and letters describing her homeland. Now, ten years later, she resolves to travel to Algeria and experience the country for herself; she arrives alone, with her grandmother's postcards and letters in tow, and a single phone number in her pocket of an Algerian, Djaffar, who will act as her guide. Olivia's quest to understand her origins will bring her to face questions about heritage, history, shame, friendship, memory, nostalgia, fantasy, the nature of exile, and our unending quest to understand who we are and where we come from.

Charlotte, Branwell, Emily, and Anne. The Brontë siblings find escape from their constrained lives via their rich imaginations. The glittering world of *Verdopolis* and the romantic and melancholy world of *Gondal* literally come to life under their pens, offering the sort of romance and

intrigue missing from their isolated parsonage home. But at what price? As Branwell begins to slip into madness and the sisters feel their real lives slipping away, they must weigh the cost of their powerful imaginations, even as the characters they have created—the brooding Rogue and dashing Duke of Zamorna—refuse to let them go. Gorgeously written and based on the Brontës' juvenilia, Worlds of Ink and Shadow brings to life one of history's most celebrated literary families in a thrilling, suspenseful fantasy.

"AS THE WORLD FALLS DOWN," CONCLUSION This is it: the final chapter in MARCO B. BUCCI and JACOPO CAMAGNI's urban-fantasy opus is here, and it's as shocking and ruthless as you would expect. Becky is drunk with magic, and her rage won't discern enemies from friends. Tragedy is just a few pages away. Death, guilt, and retribution will follow. This is the end after all. Or is it?

Lock your doors and gather close . . . if you dare! Once a rising TV journalist, Jerri Bartman has returned to her small Midwest hometown station. Demoted to hosting the nightly Creature Feature, Jerri's professional humiliation is eclipsed by the discovery that her new job comes with a secret, supernatural duty. Her missing predecessor, Count Crowley, was one of the last "Appointed" hunters of monsters. Yes. Monsters. They're real and they're hell bent on controlling the news and information consumed by humans. Everything we've ever been taught about monsters is a lie and Jerri's only possible advisor is a senile male chauvinist. It's 1983 and the outlook for humanity is getting . . . gnarly and their only hope is an alcoholic, acerbic horror host from Missouri. This sophomore graphic novel from Noah Van Sciver may seem like a left turn from his critically acclaimed debut graphic novel biography of Abraham Lincoln (The Hypo), yet upon closer reflection, it showcases Van Sciver's preoccupation with pathos and the human condition. A Novel of the Brontës

The Smartest Kid on Earth

A New York Times Notable Book of 2011, included on Amazon.com, Publishers Weekly, and NPR'S Best Comics lists A haunting postmodern fable, Big Questions is the magnum opus of Anders Nilsen, one of the brightest and most talented young cartoonists working today. This beautiful minimalist story, collected here for the first time, is the culmination of ten years and more than six hundred pages of work that details the metaphysical quandaries of the occupants of an endless plain, existing somewhere between a dream and a Russian steppe. A downed plane is thought to be a bird and the unexploded bomb that came from it is mistaken for a giant egg by the group of birds whose lives the story follows. The indifferent, stranded pilot is of great interest to the birds--some doggedly seek his approval, while others do quite the opposite, leading to tensions in the group. Nilsen seamlessly moves from humor to heartbreak. His distinctive, detailed line work is paired with plentiful white space and large, often frameless panels, conveying an ineffable sense of vulnerability and openness. Big Questions has roots in classic fables--the birds and snakes have more to say than their human counterparts, and there are hints of the hero's journey, but here the easy moral that closes most fables is left open and ambiguous. Rather than lending its world meaning, Nilsen's parable lets the questions wander where they will.

In the conclusion of this two-part graphic novel, set in 1960s Chicago, dark mysteries past and present abound, and 10-year-old Karen tries to solve them.

Scott Drakeford's epic fantasy debut, Rise of the Mages combines gripping, personal vengeance with compelling characters for an action packed first book in a trilogy. Emrael Ire wants nothing more than to test to be a weapons master. His final exam will be a bloody insurrection, staged by corrupt nobles and priests, that enslaves his brother. With the aid of his War Master tutor, herself an undercover mage, Emrael discovers his own latent and powerful

talents. To rescue his brother, Emrael must embrace not only his abilities as a warrior but also his place as last of the ancient Mage Kings—for the Fallen God has returned. And he is hungry. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. For over 20 years now, Jim Woodring has delighted, touched, and puzzled readers around the world with his lush, wordless tales of "Frank."

Weathercraft is Woodring's first full-length graphic novel set in this world—indeed, Woodring's first graphic novel, period!—and it features the same hypnotically gorgeous linework and mystical iconography. As it happens, Frank has only a brief supporting appearance in Weathercraft, which actually stars Manhog, Woodring's pathetic, brutish everyman (or everyhog), who had previously made several appearances in "Frank" stories (as well as a stunning solo turn in the short story "Gentlemanhog"). After enduring 32 pages of almost incomprehensible suffering, Manhog embarks upon a transformative journey and attains enlightenment. He wants to go to celestial realms but instead altruistically returns to the unifactor to undo a wrong he has inadvertently brought about: The transformation of the evil politician Whim into a mind-destroying plant-demon who distorts and enslaves Frank and his friends. The new and metaphysically expanded Manhog sets out for a final battle with Whim... Weathercraft also co-stars Frank's cast of beloved supporting characters, including Frank's Faux Pa and the diminutive, mailbox-like Pupshaw and Pushpaw; it is both a fully independent story that is a great introduction to Woodring's world, and a sublime addition to, and extension of, the Frank stories.

Do ideas of war and enemies hold a people together? Is a culture of conflict too seductive not to be irresistible? These are the questions Cathy Malkasian explores in her second graphic novel, Temperance. Malkasian creates, as she did in the critically acclaimed Percy Gloom, a fully realized, multi-layered world, inhabited by vividly realized characters. After a brutal injury in battle, Lester has no memory of his prior life. For the next thirty years his wife does everything to keep him from remembering—and re-constructing—a society, Blessedbowl, that elevates him as a hero. Blessedbowl is a cultural convergence of lies, memories, stories, and beliefs. Its people thrive on ideas of persecution, exceptionality, and enemies, convinced that war lurks just outside their walls. They have come to depend on Lester, their greatest war hero, to lead the charge once the Final Battle begins. Malkasian creates a densely textured social context, masterfully conveying the idiosyncratic physical domain with its spiraling structures and quasi-medieval architecture along with intimate yet plastic portraits of her characters in a rich, tonal pencil line. Temperance is a galvanizing work of empathy and violence by one of today's the most thoughtful and accomplished cartoonists.

Fiction. Art. Hybrid Genre. Relentlessly original and brilliantly hybrid, MONSTER PORTRAITS investigates the concept of the monstrous through a

mesmerizing combination of words and images. An uncanny and imaginative autobiography of otherness, it offers the fictional record of a writer in the realms of the fantastic shot through with the memories of a pair of Somali-American children growing up in the 1980s. Operating under the sign of two--texts and drawings, brother and sister, black and white, extraordinary and everyday--MONSTER PORTRAITS multiplies, disintegrates, and blends, inviting the reader to find the danger in the banal, the beautiful in the grotesque. Accumulating into a breathless journey and groundbreaking study, these brief fictions and sketches claim the monster as a fragmentary vastness: not the sum but the derangement of its parts. Del Samatar's drawings conjure beings who drag worlds in their wake. World Fantasy Award-winning author Sofia Samatar responds with allusive, critical, and ecstatic meditations. Together they have created a secret history of the mixed-race child, a guide to the beasts of an unknown mythos, and a dreamer's iconography. The monstrous never looked so simultaneously haunting and familiar.

35 YEARS IN THE MAKING: THE MOST ANTICIPATED GRAPHIC NOVEL IN RECENT HISTORY *A GUARDIAN 'BOOKS OF 2021' PICK* The year is 1964. Bailey doesn't realize he is about to fulfil his tragic destiny when he walks into a US Army recruitment office. Secretive, damaged, innocent, trying to forget a past and looking for a future, Bobby is the perfect candidate for a secret US government experiment, an unholy continuation of a genetics program that was discovered in Nazi Germany nearly 20 years earlier in the waning days of World War II. Bailey's only ally and protector, Sergeant McFarland, intervenes, which sets off a chain of cascading events that spin out of everyone's control. As the monsters of the title multiply, becoming real and metaphorical, the story reaches a crescendo of moral reckoning. A 360-page tour de force of visual storytelling, *Monsters'* narrative canvas is copious: part familial drama, part thriller, part metaphysical journey, it is an intimate portrait of individuals struggling to reclaim their lives and an epic political odyssey that plays across two generations of American history. *Monsters* is rendered in Barry Windsor-Smith's impeccable pen-and-ink technique, the visual storytelling, with its sensitivity to gesture and composition, the most sophisticated of the artist's career. There are passages of heartbreaking tenderness, of excruciating pain, of redemption and sacrifice, and devastating violence. *Monsters* is surely one of the most intense graphic novels ever drawn.

A delightful tale of ambition, morality, and self-discovery, drawn in a decidedly beautiful fashion, reminiscent of Richard Scary and Lewis Trondheim. All ages.

The idiosyncratic curriculum from the Professor of Interdisciplinary

Creativity will teach you how to draw and write your story Hello students, meet Professor Skeletor. Be on time, don't miss class, and turn off your phones. No time for introductions, we start drawing right away. The goal is more rock, less talk, and we communicate only through images. For more than five years the cartoonist Lynda Barry has been an associate professor in the University of Wisconsin-Madison art department and at the Wisconsin Institute for Discovery, teaching students from all majors, both graduate and undergraduate, how to make comics, how to be creative, how to not think. There is no academic lecture in this classroom. Doodling is enthusiastically encouraged. *Making Comics* is the follow-up to Barry's bestselling *Syllabus*, and this time she shares all her comics-making exercises. In a new hand-drawn syllabus detailing her creative curriculum, Barry has students drawing themselves as monsters and superheroes, convincing students who think they can't draw that they can, and, most important, encouraging them to understand that a daily journal can be anything so long as it is hand drawn. Barry teaches all students and believes everyone and anyone can be creative. At the core of *Making Comics* is her certainty that creativity is vital to processing the world around us.

"A thriller, and a whacking good thriller, too—shows how much can be done by a writer who knows his business—the best novel of its kind in ten years!"—*THE NEW YORK TIMES* Cutter is a scarred and crippled Vietnam veteran, obsessed with a murder he's convinced his buddy, Bone, witnessed. That it was committed by the powerful tycoon JJ Wolfe only makes Cutter even surer that Bone saw the unthinkable. Captivated by Cutter's demented logic, Bone is prepared to cross the country with Cutter in search of proof of the murder. Their quest takes them into the Ozarks—home base of the Wolfe empire—where Bone discovers that Cutter is pursuing both a cold-blooded killer, but also an even bigger and more elusive enemy.

The Routledge Companion to Gender, Sex and Latin American Culture is the first comprehensive volume to explore the intersections between gender, sexuality, and the creation, consumption, and interpretation of popular culture in the Americas. The chapters seek to enrich our understanding of the role of pop culture in the everyday lives of its creators and consumers, primarily in the 20th and 21st centuries. They reveal how popular culture expresses the historical, social, cultural, and political commonalities that have shaped the lives of peoples that make up the Americas, and also highlight how pop culture can conform to and solidify existing social hierarchies, whilst on other occasions contest and resist the status quo.

Front and center in this collection are issues of gender and sexuality, making visible the ways in which subjects who inhabit intersectional identities (sex, gender, race, class) are "othered", as well as demonstrating how these same subjects can, and do, use pop-cultural phenomena in self-affirmative and progressively transformative ways. Topics covered in this volume include TV, film, pop and performance art, hip-hop, dance, slam poetry, gender-fluid religious ritual, theater, stand-up comedy, graffiti, videogames, photography, graphic arts, sports spectacles, comic books, sci-fi and other genre novels, lotería card games, news, web, and digital media.

A commemorative edition of the classic work offers previously published and new comics, the Oscar-nominated screenplay, artist sketches, promotional memorabilia, cover art, and notes.

Bron and Ray are a queer couple who enjoy their role as the fun weirdo aunties to Ray's niece, six-year-old Nessie. Their playdates are little oases of wildness, joy, and ease in all three of their lives, which ping-pong between familial tensions and deep-seeded personal stumbling blocks. As their emotional intimacy erodes, Ray and Bron isolate from each other and attempt to repair their broken family ties – Ray with her overworked, resentful single-mother sister and Bron with her religious teenage sister who doesn't fully grasp the complexities of gender identity. Taking a leap of faith, each opens up and learns they have more in common with their siblings than they ever knew. At turns joyful and heartbreaking, *Stone Fruit* reveals through intimately naturalistic dialog and blue-hued watercolor how painful it can be to truly become vulnerable to your loved ones – and how fulfilling it is to be finally understood for who you are. Lee Lai is one of the most exciting new voices to break into the comics medium and she has created one of the truly sophisticated graphic novel debuts in recent memory.
