Spanish Sentence Builders is a workbook aimed at beginner to pre-intermediate students co-authored by two modern languages educators with over 40 years of extensive classroom experience between the two, both in the UK and internationally. This 'no-frills' book contains 19 units of work on very popular themes, jam-packed with graded vocabulary-building, reading, translation, retrieval practice and writing activities. Key vocabulary, lexical patterns and structures are recycled and interleaved throughout.Each unit includes:1) a sentence builder modelling the target constructions;2) a set of vocabulary building activities;3) a set of narrow reading texts exploited through a range of tasks focusing on both the meaning and structure of the text; 4) a set of retrieval-practice translation tasks;4) a set of writing tasks targeting essential micro-skills such as spelling, lexical retrieval, syntax, editing and communication of meaning.Based on the Extensive Processing Instruction (E.P.I.) principle that learners learn best from comprehensible and highly patterned input flooded with the target linguistic features, the authors have carefully designed each and every text and activity to enable the student to process and produce each item many times over. This occurs throughout each unit of work as well as in smaller grammar, vocabulary and question-skills micro-units located at regular intervals in the book, which aim at reinforcing the understanding and retention of the target grammar, vocabulary and question patterns.

"Language and literacy are highly contested areas of the curriculum. Questions of what should be taught, how it should be taught, and who should control such decisions, are increasingly subjected to public scrutiny, debate and challenge in a manner which is often more reflection of competing social and political values than of theory and research evidence." "In recent years there has been a rapid development of new conceptual frameworks for understanding language literacy and learning, from such diverse fields as anthropology, cultural studies, social psychology, and critical linguistics. The papers in this collection have been chosen because they will help readers to consider ways in which these new developments in theory and research may be applied to everyday practice."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. A Novel

No feminism or feminist philosophy without "A Vindication of the Rights of Woman". Wollstonecraft argues not only that women ought to have the education of a woman should fit her position and role in society, but also that they are human beings and thus deserve the same fundamental rights as men.

This report from the Home Affairs Select Committee cautions the Government against introducing measures which could damage the UK's thriving educational export sector. The Committee remains concerned that a number of the Government proposals could have serious unintended consequences. International students make up 10% of first degree students and over 40% of postgraduate students at UK universities. The international student market, estimated to be worth £40 billion to the UK economy is a significant growth market and the UK is the second most popular destination in the world for international students. The Committee's findings include: the importance of the Post-Study Work route in attracting students to the UK and disagrees with the Government proposal to close it; it suggests alternatives to the Government's proposals on language requirements, specifically a permanent change to the parameters of the student visitor visa so that it can be used as a viable route for all of those attending pre-degree programmes; it supports the Government's proposals to tighten the accreditation of language schools but is concerned that Government approval of the current accreditation bodies has lapsed. The Committee calls for a single streamlined accreditation system and agrees that any cap on student visas is unnecessary and undesirable; the Committee also notes that progress has been made on closing down bogus language schools and supports the Government's intention to crack down on bogus colleges and bogus students but it is not persuaded that students are migrants, as defined by the UN and suggests that students ought to be excluded from net migration numbers. The Committee also raises concerns that the data used in assessing migration figures are not fit for purpose and could inhibit effective policy making.

Beginning with a dilemma about whether he spends more money on reading or smoking, George Orwell's entertaining and uncompromising essays go on to explore everything from the perils of second-hand bookshops to the dubious profession of being a critic, from freedom of the press to what patriotism really means.

A "touching, furious, sharp, and very funny" novel of an immigrant teenage girl finding her own identity in France (Booklist). The Paradise projects are only a few metro stops from Paris, but it feels like a different world. Doria's father, aka the Beard, has headed back to their hometown in Morocco, leaving her and her mom to cope with their mektoub, their destiny, alone. They have a little help—from a social worker sent by the city, a psychiatrist sent by the school, and a thug friend who recites Rimbaud. It seems like fate has dealt them an impossible hand, but Doria might still make a new life—"with bravado, humor, and a healthy dose of rage" (St. Petersburg Times). "[A] sassy, spunky tale . . . Doria has what it takes to storm any barricade." —The Hartford Courant "[Doria is] as likable as Holden Caulfield or Prep's Lee Fiora. Readers will cheer. Highly recommended." —Library Journal, starred review "A promising addition to the world's literary voices." —The Miami Herald "Moving and irreverent, sad and funny, full of rage and intelligence. Her voice is fresh, and her book a delight." —Laila Lalami, bestselling author of The Moor's Account seventh report of session 2010-11, Vol. 1: Report, together with formal minutes, oral and written evidence
