Apple iPhone

users have been

able to connect

their phones to car
navigation systems

for years, so one

may wonder what

Access Free Volvo Navigation Guide

is so different about Apple CarPlay. For starters, instead of connecting to a third-party configuration CarPlay launches a display which mimics the features of the iOS user interface that

Access Free Volvo Navigation Guide

we've become accustomed to. CarPlay condenses your phone's apps into those, which are compatible with the system and enable handsfree handling, which is the primary selling point of the

Access Free Volvo Navigation Guide

CarPlay
application.
Handsfree
operation
enhances safety
and CarPlay goes
as far as disabling
your iPhone

connected to the
system. CarPlay
can be controlled

Access Free Volvo Navigation Guide

using the navigation controls, touchscreen or ideally Siri, which acts as a co-pilot which can tell you what's around you, where to go, make your calls for you, select songs and audio files to

Access Free Volvo Navigation Guide

play, navigate options and apps, and send messages while you are on the go so you never have to take your eyes off the road or your hands off the wheel.
